UMC ROAD TRIPS TO UTAH'S AMAZING LANDSCAPES (SEE PGS. 5,7,&10)

### From the Top Down by Mike Thompson

A couple of weeks ago—14 Apr 2025—Road & Track magazine published an update<sup>1</sup> with respect to the forthcoming Miata NE. The article is based on interviews conducted just a week earlier with Mazda's Chief Technology Officer—Ryuichi Umeshita.

I continue to believe Mazda is way down the road with respect to the NE. But they will only drop the occasional hint. Here are a couple of items from the article.

1. Umeshita himself asked "What defines the MX-5? I would say the most important thing is that it is lightweight... The second most important thing is that it is lightweight... Whatever the future MX-5 is, it must be very light." From the get-go, Mazda has resisted pressure from the US market to make the car bigger and more powerful. "When we have to select between design alternatives... we tend to select the ones whose parts are less expensive, lighter and smaller... We are considering making [the NE] less than one [metric] tonne in weight, and less than four meters in length." If you are keeping score, that's about 130 lbs. lighter than the ND, and essentially the same length.

2. The new car will not need and will not offer additional power. To meet emission

standards around the world, the NE will likely use Lambda:1 technology (technobabble omitted). "If we go to Lambda:1, then naturally power will go down" admits Umeshita. "In order to avoid that, we have defined the displacement to be 2.5 liters. So the power is very good, and the fuel economy will be very good." (I believe this is news!)

3. Umeshita indicated that Mazda is determined to combine the engine with a manual gearbox—another thing made much harder by tightening emissions standards. "[A] manual transmission has the direct feeling, the sense of *Jinba Ittai*," the unity of car and driver.

Well. . . Don't lose any sleep over the anticipation, or the uncertainties. What is most important is that Mazda is committed to keeping the MX-5 Miata in their lineup. I just completed a top-down circuit to see a few of the northern Utah ski resorts: Snowbasin, Nordic Valley and Powder Mountain. All are closed for the season. It was a delightful springtime drive. I hope you are getting out as well. Mike

If the weather is bad, we will adjust the route by going down Hwy. 89 and to Thistle.

After arriving in Manti we'll be on our own or break into small groups. Food trucks and restaurants available for lunch or dinner. There will be an awesome

Car Show and there is **"Big Daddy" Ed Roth's Museum and Store** where you can purchase Rat Fink merchandise items. Live music and bands! **Park Address: 200 N. 300 W. We will probably go home via Hwy. 89 or a quicker way is Hwy. 132 north to Moroni / Nephi and then I-15 home. Stay as long as you want if you like! This is *always* a FUN event!

## How to Lead a Drive with the Utah Miata Club: The Guidelines & Safety Tips:

by Mike Bailey

Generally speaking, the leader or organizer of the drive leads the drive from start to finish, unless otherwise noted at beginning of the drive. The drive leader will usually have a meeting with all drivers and passengers to discuss the drive in advance. Note: Please bring your FRS Two-way Radios for communication during the drive. We use Channel 5.5.

1. Drive at your own level. If the Miata behind hurries you, wave them around and let them pass. Depending on the type of event, allow enough space between your car and the car in front of you to allow you to enjoy the drive and so the driver ahead of you isn't worried about how good your brakes may be.
2. Keep the Miata in front and the Miata behind in sight at all times without tailgating. This is especially important when making a turn to ensure that the Miata behind you sees the turn.
3. Use turn signals. As soon as you see the turn signal of the car in front of you, turn on your signal to acknowledge to the car in front you see the turn coming and then to signal the car behind you a turn is coming. Usually we mention on the radio all the major turn-offs or direction changes, especially if we are exiting a freeway.
4. When pulling onto a road, from a regroup point for example, everyone should pull out together when the lead and sweep cars do so. Usually turn your steering wheel completely to the left for this tight turn-out. This is safer, faster and keeps the group together. Watch your rearview mirror for the sweep car to move out into the road so you will be prepared to move out all together.
5. Accelerate slowly when in loose gravel. Take care not to throw gravel or splash water/mud in the path of the car behind you.
6. Sometimes we turn our parking or other lights on while on a drive. In inclement or bad weather or if in the early evening this is necessary. If you have any mechanical or other problems or emergency, call on the radio for help and/or flash your high beams if you need to stop. If there is any major issue pull over to the side of the road! Others in the group will help assist you.
7. Be careful of your speed and in populated areas watch for children and pedestrians. Traveling together, we may attract attention from children and/or highway patrol.
8. We like to stay together closely BUT always be courteous to other cars and allow them to take their turn and move into our group. Frequently, they may signal you to go ahead of them so we can all proceed together but be sure to give a friendly smile, wave, or thank you of some sort if a driver is willing to wait for a dozen cars to pull out ahead of them.
9. Unless it is an emergency situation or prior arrangements were made to do so, stay behind the leader and ahead of the sweep car. Anyone who passes the leader or falls behind the sweep car has officially dropped out of the run and is on his/ her own. In groups over 10 cars we usually have a mid-person or car designated to pass on messages to cars behind them.
10. Have fun and enjoy the event!

We can choose between what has been done previously - driving to Fish Lake then taking Gooseberry Road to Salina and north on Hwy 89 to Nephi. Or, we can take a backroad to Cedar Breaks, head through Brian Head ski area and into Parowan then I-15 home.

Editor's Message; We'd like to have UMC members come up with some ideas for possible places for monthly luncheons and drives for our 2025 Calendar. **Refer to open spots on above calendar.** You can just suggest, plan it and/or lead it. On lunch places we prefer somewhere with a private room or area so we can conduct our monthly meeting. Also we need to be able to pay for lunch by couples instead of a group. Also please let us know of some local drives or places you'd like to see or visit. We also like to do a few 'overnighters' or weekend trips. Please send your ideas to either the President or another officer or director or to me, the Newsletter Editor. We hope that all members will be active in club activities. **This is YOUR CLUB so please help us with plan.**
